DBMS MINI PROJECT

PROBLEM STATEMENT

People watch cricket, football, hockey, and other games at stadiums. Reservations are essential to watch these games. Getting a seat to watch a game can be difficult. The stadium seat booking system allows to get match tickets easily through online mode.

WEB DEVELOPMENT

Web development refers to the creating, building, and maintaining of websites. It includes aspects such as web design, web publishing, web programming, and database management. It is the creation of an application that works over the internet i.e. websites.
